

Chinese Google.cn Conspiracy

(The 2nd opening shot of World War 3 the Cyberwar)

The 1st opening shot is filed on this website under *Discovering Diane*.

Did you know that the United Nations UN is located in New York and was founded by the USA and the United Kingdom ...UK ?

Well it is. And it is mainly funded by the US who owe China a WHOLE BIG HEAP of money.

WW3 will remain a cyber war into the foreseeable future. The Google/PRC meltdown phase has some time to run.

It will pay to monitor the trendometer regularly...just type in ...China Google in the search box

This online/internet phenomena will be considerably cranked up when the PEOPLES REPUBLIC of CHINA...PRC... demand the UN be relocated in Beijing China

Watch this space. WW1 ...*In Love and War*. WW2 ...*Lilly Marlene*. WW3 is the backdrop to *China 70s Child*.

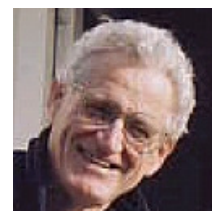

Apparently, Google's demise in China was an inside job. Of course there are denials and cover-ups galore. Sources tell me that uncle Hu Jintao (China's top man) knew there was a mole acting as a staff member in Google's Beijing or Shanghai office.

You should also read Lawrence Solomon's *Googlegate: The search engine may be standing up to Chinese censors. What about Google's own censors?*

Perish the thought but Google may be implicated in promoting all this bullshit about climate change and other environmental balderdash.

Google did not run their Gmail service in China. The highly esteemed worldwide Gmail application had its integrity seriously compromised from within China by someone on Google's payroll who at the same time was working for China's Government.

The Plot Thickens huh? All will be revealed in my Epic Operatic Work *CHINA 70s CHILD* scheduled to be premiered before 2076...100 years after Mao Zedong's death.
